

REMARKS

The above amendments to the above-captioned application along with the following remarks are being submitted as a partial response to the Official Action dated July 21, 2005.

Status of the Claims

Claims 1-6 and 11-14 are under consideration in this application. Claims 1-2 are being amended, as set forth above and in the attached marked-up presentation of the claim amendments, in order to more particularly define and distinctly claim Applicants' invention.

Additional Amended

All the amendments to the claims, the specification and the drawings are supported by the specification. Applicants hereby submit that no new matter is being introduced into the application through the submission of this response.

Formality Objections

The specification was objected to for not describing reference numbers 307, 705, 811, 822, 823, 832, 833, 1001, 1106, 1303 (should be 1305), and 1304, Figs. 1-2 were objected to for not being labeled as "Prior Art", and claim 2 was objected to for reciting "both items" and has requested corrections thereof to be filed by August 21, 2005. Claim 1 was objected to for reciting "connects to a user computer and an Internet service provider" and the specification for some informalities.

As indicated, claims 1-2, the specification and drawings have been amended as required by the Examiner. Accordingly, the withdrawal of the outstanding informality rejection is in order, and is therefore respectfully solicited.

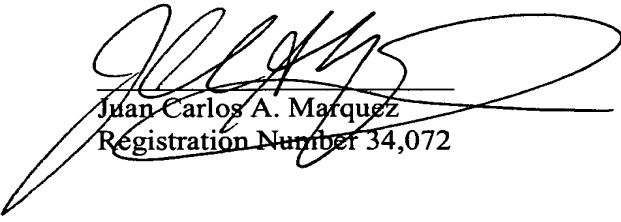

Formality & Prior Art Rejections

Applicants defer responding to the rejections via a subsequent response.

Should there be any outstanding issues requiring discussion that would further the prosecution and allowance of the above-captioned application, the Examiner is invited to contact the Applicants' undersigned representative at the address and phone number indicated below.

Respectfully submitted,
